Comments: I support NON-ANIMAL testing!
It seems odd that the very thing that the ICCVAM was formed
to accomplish is not getting done! And that it's European
counterpart is so far ahead... why is that?
As a tax payer, I'd like to see my dollars going towards
more (more than just ONE) non-animal testing methods
approved. It has been proven that animal testing is NOT
accurate as well being cruel.
Sincerely,
Andrew Rolle
